ABOUT COMPANY

SIA "Zemgales mežu īpašumi" as a company was founded in 2017. The company is engaged in full-service forest management. Starting with documentation, forest development, timber sales, ending with forest regeneration and young growth care.

We offer the opportunity for registered participants to participate in electronic felling and forest property auctions, as well as to purchase various types of real estate.

SIA "ZMI Timber" was founded in 2024 and adds a new industry to the group of companies - a diverse pallet production factory, which within a year is able to take a role in the local market and increase production volumes, becoming a competitive company.

Our company is staffed by professionals in their field, so by cooperating with us, you will receive high-quality service in all areas related to forestry. The company treats the assigned tasks with great responsibility and accuracy in order to complete them with the best quality.

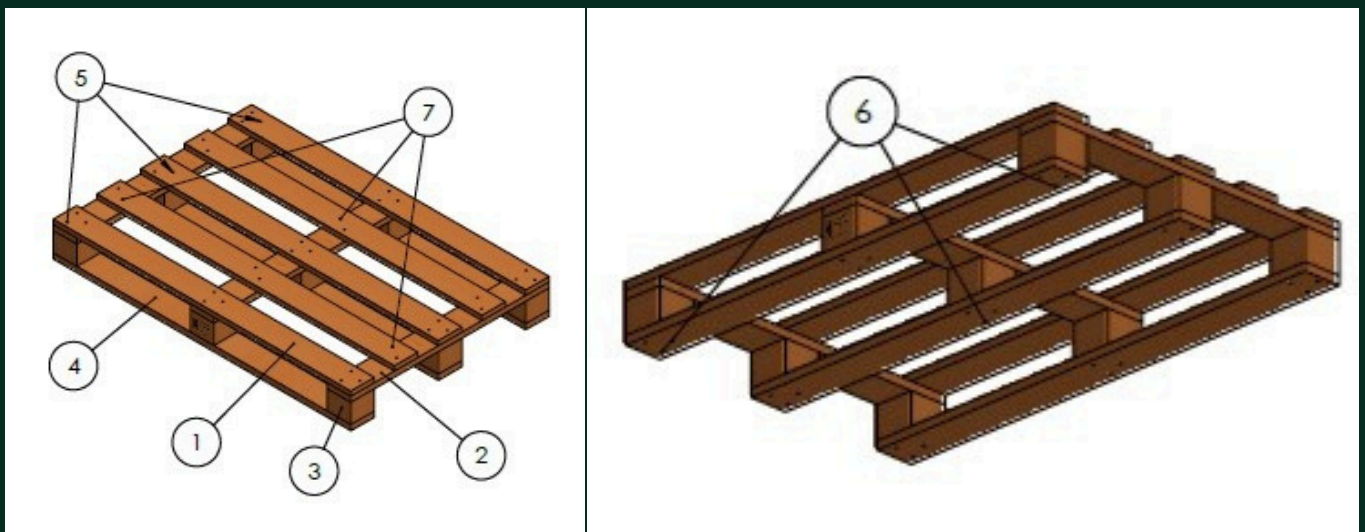

We are for a properly organized forest sector, which will help every forest owner achieve maximum satisfaction.

Founder Arvids Rozens
